Improving the way people learn

Instructor Professional Development (IPD) Week

Cisco NetAcad Technical Field Engineering Team
In collaboration with Belgian IT Academy Support Center BiASC

New to IPD Week?

- Instructor Professional Development (IPD) Week is a quarterly program offered to NetAcad instructors. Its goal is to offer professional development through free, one-hour virtual sessions.
- Topics include technical sessions to keep instructors up-to-date on the latest technology trends and expand their knowledge. Plus, program update sessions from around Networking Academy.

Learn while earning certificate of attendance

Interact and connect with your peers

Access anytime, anywhere around your schedule

Of instructors say they have become better educators
